Tuesday, May 1, 2018 - Engelberg ~ Heaven on Earth

Arrive at Zurich Airport and depart for Engelberg, Switzerland. Check into the Hotel Schweizerhof for a stay of seven nights with breakfasts and dinners daily. Free time to explore Engelberg before a wonderful dinner. Nestled and protected in the valley of 10,000 foot Swiss Alp Mt. Titlis, Engelberg is a charming Swiss Village. Listen and you will hear "cow bells" as they move up the hills to graze. Enjoy mountain fresh air and local menus. By using overnight flights and planning free time after you arrive, jet lag is kept to a minimum. The use of one centrally located "home port" like Engelberg allows us to comfortably visit great places and sightsee, but return to our home by late afternoon each day. We have found that packing and unpacking and spending one night in different hotels is very tiring and more expensive. (B, D) (Wi-Fi)

Wednesday, May 2, 2018 Luzern, Weggis and William Tell

Luzern's old city straddles the river; grand resort hotels and picturesque cafes hug the edge of the sparkling lake. Medieval churches, modern museums, ornately frescoed buildings share the city with unique and exclusive boutiques in the Altstadt. Walk the city's landmark all-wooden covered bridges with wonderful murals. A stop will be made at the Lion Monument. This is one of the world's most moving public sculptures, it pays tribute to the more than 760 Swiss guards and officers who died defending Louis XVI of France in 1792. After your guided tour, free time for lunch and shopping before your scenic driver to the pretty lakeside village of Weggis. This beautiful village has been a resort destination of the world's wealthy for hundreds of years. Enjoy a stroll on the promenade and maybe treat yourself to a delicious Swiss pastry. Later you will visit Altdorf, home of William Tell. Late afternoon arrival back home in Engelberg. (B,D)

Swiss resort areas. Glamorous yachts and private jets signal the arrival of tanned jet setters who frequent Lugano. Lugano enjoys about 2,300 hours of sunshine per year, promotes the lush growth of cypress, palm trees, camellias, mimosas and olive trees, just to mention a few. (B,D)
