Join JB Tours of Ohio on a Junk Food Junket. First stop we learn how they pop and flavor delicious popcorn at Al's Delicious Popcorn. Then enjoy lunch at a family-owned pizza restaurant known for its scratch-made dough and wide variety of pizzas.

Grandad's Pizza and Pub never disappoints. For dessert we will travel to Anthony-Thomas Candies. We will walk along a glass-enclosed suspended "Cat-Walk" and observe eleven lines producing 30,000 pounds of chocolates per shift. Both tours end with a Free Sample and of course time to shop at each.

#### \*\* Al's Delicious Popcorn

The flagship Columbus store is where Al's Delicious Popcorn began and where it continues to thrive! This location was the first to provide hand crafted, small-batch, gourmet popcorn to the Columbus community and has done so since 1985. They do most of the new flavor development and testing in this full-service location that includes a retail counter, kitchen, and packaging operations. During the tour you will learn about the history of popcorn and how Al's Delicious Popcorn was started. Step into the kitchen with the Popcorn Chefs to learn about how they pop and flavor our delicious popcorn. The packing crew shows you how our bags are packed by hand. The tours finish with a tasting for our group, which is great because your taste buds are watering by that point.

#### \*\* Grandad's Pizza and Pub

Located on Bethel Road in Columbus is generally well-regarded for its tavern-style, thin-crust pizza, featuring fresh toppings and a cozy atmosphere. The family-owned and operated pizza shop offers a wide range of delicious food. They make the dough from scratch daily so you know you're getting the freshest crust on the bottom of your pizza pie. We will have a variety of Pizzas to enjoy for our lunch break.

#### \*\* Anthony-Thomas Chocolates

Ever wonder how chocolate is made? In about an hour, tour groups can experience candy making from start to finish in the 175,000 square-foot, state-of-the-art candy factory. Walk along our comfortable, glass-enclosed suspended "Cat-Walk" and observe eleven lines producing 30,000 pounds of chocolates per shift. The experienced tour guides explain each process step-by-step from our kitchens to the final packaging. View interesting sights such as the huge copper kettles where the centers of some of the candies are created and the unique silver-wrapped pipes that carry liquid chocolate throughout the factory. The tour finishes in the beautiful 2,500 square-foot retail shoppe. Best of all, everyone will leave with a free sample !!
